

Re-building life beautifully

13 Vision House, Blaauwberg Road, Table View. P.O. Box 55091 Sunset Beach, 7435

COMPANY PROFILE

About us

RE-BUILD is your one stop shop for all re-decorating, re-designing, re-refurbishment and re-modelling requirements! Any renovating work is our scope of expertise. We make the renovating and building process easy for you. RE-BUILD will take care of all the processes required to make your space bigger and beautiful.

We are a building and renovating company that specializes in the Re-decorating of offices, restaurants, hotels, homes, commercial and industrial spaces, shop-fitting, building of houses, refurbishment of properties and renovating of buildings in the Cape Town area. All our contractors are qualified and experienced. We have over 23 years experience in the building industry.

The Business was taken over by Jo Mateus who had 10 years working experience in one of the largest privately-owned Building companies in the United Kingdom resourcing and procuring for governmental housing and school projects. Having a strong love for Cape Town and her knowledge of Building Supply Chain & Procurement in the building industry, Re-Build was a natural choice to share in a hands on approach in a local business. Add to that Elizabeth who has over 25 years in project management of building homes in private estates as well as residential complexes, houses, apartment blocks and office renovations, the expertise continues. Reliable, fast and efficient construction manager Ryan offers a turn-key solution. Over the years we have built up relationships with suppliers ensuring our clients get the quality and product they require on time and expertly done.
